LUKE P. BLACKBURN.

The Monument to the Philanthropic Governor of Kentucky Unveiled.

FRANKFORT, Ky., May 27.—The old capital of Kentucky was in complete possession of the Knights and officers of the Grand Masonic Lodge today. The Grand Commandery of Knights Templar met in annual convocation, and the Grand Lodge came at the request of Governor Buckner to unveil and dedicate the monument erected by Kentucky over the remains of the late Governor Luke P. Blackburn. At the State House ex-Gov. Knott delivered the address of welcome, Grand Commander Moffatt responding. After dinner the procession formed and moved to the cemetery.

Gov. Buckner, the speakers of the occasion, Mrs. Blackburn, widow of the dead Governor, and a number of ladies occupied places on the stand near the monument. The commanders, military and people surrounded the stand, and at 5:30 o'clock Gov. Buckner arose and spoke as follows:

"Grand Master Charles H. Fish, of Covington—Most Worshipful Sir: The people of Kentucky, being animated by a desire to show their respect and to honor the memory of Dr. Luke P. Blackburn, who was one of the esteemed Governors of this Commonwealth, have erected this monument, and are desirous that it should be examined by the Most Worshipful Grand Lodge, and if approved, that it be dedicated and unveiled, agreeable to the usages of your ancient and honorable institution.

Then the ceremony of the Masonic order, beautiful and impressive, was followed, and after pouring the corn, wine and oil, the Grand Master slowly struck the monument three times with his gavel; the covering was removed and the band solemnly and sweetly began to play a hymn; Rev. J. M. Worrell, D.D., then offered a prayer, and Gov. Buckner introduced Judge W. M. Beckner of Winchester, who spoke at considerable length.

A short prayer and the unveiling closed the ceremony of the unveiling and dedication of the Blackburn monument.

INGALLS AS A PROPHET.

Hutchinson, Kansas, May 26.—At the meeting today of the Republican editors of the Seventh Congressional district a letter from ex-Senator Ingalls was read and warmly applauded.

Among other things the letter said was: "The Republican party is now confronted with two problems which threaten its supremacy. If we are to succeed, we must deal with the issues of the day as we dealt with slavery, secession and State sovereignty thirty years ago. The Republicanism of the future must readjust its attention to the changed condition of American life or it will perish. I wish to save it from this fate by recalling the spirit, the energy, the aggressive and patriotic forces of the founders of the campaign of 1892. This will be waged upon economic, practical questions, and upon memories. Harrison will be renominated and Cleveland will be his antagonist. If we have courage and conscience it will be an Australia. If weicker with popular errors, compromise with unprincipled leaders, and sneer at honest differences of judgment and opinion, it will be a Waterloo."

Woman and Child Hanged.

Galena, Kansas, May 26.—Several weeks ago Mrs. Blanche McKee, from San Juan county, Colorado, came here to visit her mother. She was accompanied by her two children, aged 6 years and 8 months, respectively. She had not been here long when Wm. Alford, also of Colorado, appeared on the scene. He and Mrs. McKee were evidently on very intimate terms. Sunday afternoon Alford went walking in the woods near town with Mrs. McKee and her two children. The oldest child returned home at 4 o'clock. Mrs. McKee and the younger child were never again seen alive.

A searching party which had been sent out Sunday evening today discovered the body of this mother and child, hanging to a tree in the woods where they had been walking Sunday. The mother had been hanged with her apron and the child with a ribbon. Alford was arrested Sunday evening on suspicion of having murdered Mrs. McKee and her baby. When he heard the news of the finding of the bodies he attempted to commit suicide by hanging in his cell but was cut down in time to save his life.

SUFFERINGS OF JEWS.

Scenes Resulting from Russian Measures of Expulsion.

Berlin, May 28.—The Hebrew relief committee here has secured a long railway tunnel at Charlottenburg in which to shelter Russian Jews en route to Hamburg, for embarkment. Boxes of clothing and enormous boilers of coffee and supplies of bread and brandy are in readiness to relieve the misery of the crowds of fugitives that daily pour out of the railway trains. Many heartrending scenes are described and tales are told of extreme suffering. Many of the fugitives have to leave on a day's notice, and were compelled to abandon everything but what they stood in, while others who were octogenarians hardly able to walk, are seen staggering under racks containing all their present worldly possessions. In many cases the fugitives are of the poorer classes, with numerous scantily clothed children dragging at their mothers' skirts and crying for bread.

All are shy and suspicious, remembering their ill treatment at Russian railway stations, and fear fresh tortures and predictions if they enter the waiting rooms. A doctor attends the children who are ill from the effects of the journey. The fugitives describe how the streets in which they lived would be suddenly crowded with the police searching for Jews, who would fly to the synagogues for safety; how the doors of the synagogues would be wrenched and the troops of armed men would tie their hands and feet and plunder every thing in the place, and how, on arriving at the frontier, the police would extort fresh bribes to allow them to cross.

THE PASSING OF JAS. G. BLAINE.

Decay Approaching the Premier. Both Mental and Physical.

The Washington correspondent of the St. Louis Republic writes his paper as follows, under date of May 27:

It need not surprise the people of the United States if it be announced that Mr. Blaine is near the end of his public career. The Republic correspondent has been informed on unquestioned authority that the health of the Secretary is much more seriously impaired than his friends, physicians, and immediate family have been willing that the outside public should know. Not only is the Secretary's physical condition in a bad state, but assurances are forthcoming that he is relapsing into mental decay. This does not mean that his mind has absolutely given away, but it means that he is losing his memory; that he is losing interest in public affairs, and in a general way that he is verging on that state which John Sherman and other public men have been so long afraid of, absolute mental collapse. The chances are that Mr. Blaine will not return to Washington in the near future. As soon as he is able to be moved, he will be taken to his summer residence at Bar Harbor in the State of Maine.

Those who are most familiar with his state of health sadly admit that the chances are that he will never resume his place at the head of the State Department or be again a factor in political or official life. He was in good health when he left the capital, but the stroke he received while in New York was vastly more serious than the outside public were given reason to believe. Heretofore when ill Blaine has always been brave and has fought for recovery. Even when sick his mind has been active and contentious. Now he seems to have lost courage, to be indifferent to what is going on about him, and only anxious for absolute peace and quietness. Weakness of mind, or intellect, of course is the last thing that his family or immediate friends will admit, and it is one of the last things that the American people, perhaps, irrespective of party, would care to hear. But it may be as well at this time as later on to prepare for the inevitable and anticipate the passing of Blaine from the theater of public affairs. The bold and brilliant intellect which has charmed his countrymen for more than a quarter of a century, is unquestionably on the very verge of decay.

Kentucky's Direct Tax.

Capt. C. T. Allen, in the Princeton Banner, says:

"It is by a few men that the new constitution ought to be defeated, because it appropriates to the common school fund the \$600,000 which which the State will soon receive from the United States government under the 'Direct Tax' Refunding Act. They say it belongs to those who paid the tax—that it does not belong to the State, etc.; and one citizen declares that he has receipts for all he paid, and no constitution shall take his part from him, etc. No citizen of Kentucky ever paid one cent under the Direct Tax law of Congress. Kentucky was called on for her share, and instead of levying a tax to raise the amount, the Legislature paid it, every dollar of it, out of the State Treasury. No tax was ever levied in Kentucky to raise that amount; she was called on to send it to Washington to aid in prosecuting the war. No citizen can show a receipt for his share of this money, for the simple reason that he didn't pay it. When the Federal Government pays this sum back to Kentucky, it will go to the State Treasury, not to individual citizens, who never paid one cent of it.

Robbers in Maine.

Highwaymen Attempt to Hold Up a Crowded Passenger Train.

Bangor, Me., May 16.—The train which left Bangor for St. Johns last night at 7:40 o'clock was held up just beyond Enfield, who fired at the engineer and cars. The train had left Enfield when a man was noticed by the fireman crawling over the tender and who told him to stop the train. The gong on the engine was sounded but the engineer didn't stop the train until the gong again rang. The engine then came to a standstill, when shooting was heard, and for five minutes the gang of four robbers kept up an indiscriminate fire, the mail car being the particular object of attack.

The leader of the gang was armed with a rifle, the others with revolvers. They fired several shots into the baggage and mail cars, but the engineer pulled the train out before any one was injured. The station agent at Enfield was fired at by the men, as he was hanging out a signal light, when the glass of the lantern was broken and the light extinguished. The men ordered him to leave and he did so. Officers will be sent out to capture the assailants if such be possible. The affair has caused considerable excitement in this section.

Injunction Dissolved.

Greenville, Ky., March 28.—Judge Grace yesterday dissolved the injunction restraining the collection of the taxes for the payment of Muhlenberg county's subscription to the bonds for the Elizabethtown and Paducah railroad. An appeal to the court of appeals has been taken.

Color of Flowers.

There is a purpose for everything in nature. The existence of flowers is not merely to excite the fancy of mankind, but to propagate the species.

Their colors are not freaks to tickle the esthetic; but to attract insects with the selfsame view.

So their fragrance and honey serve the same selfish end. Other uses are merely incidental.

I shall mention the color of some of our wild flowers—all found in Crittenden county—in something like the order of their blooming:

WHITE.

Hepatica (Liverwort), Wood Anemone, Service Berry, Blood Root, Spring Beauty (has pink stripes on petals) Marsh Penstemon, Dogwood, Wild Plum, Fingerwort, Pinstemion (tinged with purple) Mayapple, Yucca, (Bear Grass) Clematis, Wild Point Vine, Violets (cream color) Blackberry and the rays of Camomile (dogfennel) Asters and Ox-eye Daisy, White Wake Robin, (rare) Partridge Berry (rare, very sweet scented.)

BLUE.

Blueets, Smooth Lungwort (Blue-bell) Spiderwort, Larkspur (varies from deep blue to almost white), Blue Lobelia, Violets, Vervane and Verbenas, Blue curls, Mist Flowers, and Salvia.

PURPLE.

Gentian, Jacobs Ladder, Sweet William, Wake Robin (dull purple, red or brown) Monkeywort (tinged with purple) Dwarf Iris (purple or pale blue and yellow) waterleaf, Stramonium and Purple Aster.

RED.

Catch Fly or Fire Pink, Redbud, Cardinal Flower, Pink Root, (red and yellow).

PINK.

Columbine (yellow and pink), Wild Rose, American Century, Phlox, Fingered Orchis, and Meadow Beauty.

YELLOW.

Dogwood Violets (Adlers Tongue) Crowfoot, Dandelion, Pond Lilies, Wood Sorrel, Snot-the Foxglove, (rare) Violets, Canada Lily, Cornopis, Golden Rod, Evening Primrose, Jewell weed, Careopsis, Ladies Slipper, Mullein, St. John's Wort, Virginia Creeper, Hairy Puccoon, Cone flower and Sunflower.

THE AIR SHIP SAILS.

The Model Exhibited to a Select Audience.

St. Louis Republic.

At the meeting of the St. Louis Autumnal Festivities Association on Monday evening at the Exposition Building, there were a number of neat invitation cards handed around among the directors requesting the presence of the recipients at the trial trip of the model of the Pennington air ship, and that trial trip took place last evening in the Exposition Music Hall. The matter was kept very secret, and though a few of the cards found their way to the press, nothing farther than that the model would be exhibited could be learned. The audience at the Exposition last evening was composed of only a few of the leading business men of the city. The hour appointed for the trial was 5 o'clock and there was no delay. The model, which was exactly like the cut of the air ship published in the Republic, with the exception of not having the car suspended underneath, is 5½ feet in diameter, 21 feet over all in length, and weighs 35 pounds. It has a lift capacity of forty ore pounds, and Pennington says has attained a speed of thirty miles an hour. The model itself is constructed of oil silk, on a frame of hollow tubes of aluminum, which are filled with hydrogen gas, and plugged at the end so that their weight is practically nothing. The trial of the model last evening was pronounced by the gentlemen present a success. It was clearly demonstrated that the model steered and propelled itself. It is claimed to be the only aerial craft ever made that accomplished these feats. The model was propelled by a screw attached to the front of the machine and was worked by a small dynamo attached to the lower side, and which weighed three and a half pounds and was fed from a battery on the stage. The model circled gracefully around the large hall, its direction being changed from time to time by the rudder arrangement being turned by Mr. Pennington or one of his assistants.

This model was brought here because St. Louis is to be the home of the first successful airship that the world has ever known, and because that ship is now being built at the St. Louis Fair Grounds. This vessel is designed to carry six persons. The material for the ship has all been brought to St. Louis, and the inventor promises to have the ship put together and ready for the trial trip within one month from today. The diameter of this airship is 24 feet and its length over all 90 feet; its lifting capacity will be 1700 pounds, and the total weight of the machine and equipments 520 pounds. The machine will cost ten thousand dollars for the material and the labor alone.

The Third Party Nominations.

Immediately after the adjournment of the Cincinnati Convention, the delegates from Kentucky, about sixty in number, a majority of whom were from Kenton and Campbell counties, met in Covington and nominated the following candidates for State officers:

For Governor, Col. Pollock Barbour, of Jefferson county; Lieut. Governor, Dr. S. F. Smith, of Franklin county; Attorney General, B. L. D. Guffey, of Butler county; Auditor, W. G. Fulkerson, of Ohio county; Treasurer, I. G. Sally, of Trigg county; Superintendent Public Instruction, W. W. Morris, of Ballard county; Register of the Land Office, T. B. Herald, of Butler county; Clerk of the Court of Appeals, John G. Blair, of Nicholas county.

It was announced that a band of lecturers would be let loose in the State between this and the August election to educate the people in the doctrines of the new party.

A State Central Committee was organized, consisting of I. A. Russell, John S. Lamb, J. T. Wheeler, John C. Southerland, W. P. Maash, H. D. Blankenbaker and G. K. Daniels.

Governor Hovey, of Indiana, has refused to honor Governor Buckner's requisition for a sixteen year old bride living at Rockport, Indiana, whom her father wants to send to prison for swearing that she was of marriageable age.

Senator Call has been reelected by the Florida Legislature. An unsuccessful effort was made by his opponents to break a quorum, and of the hundred members only fifty four voted. The contest began weeks ago.

A bill has passed the Pennsylvania Legislature providing for a constitutional convention.

A BLOODY TRAGEDY.

Two Men Murdered in a Brutal Manner at Cumberland Gap.

Middlesboro, Ky., May 28.—The town of Cumberland Gap, over the Tennessee line, is again the scene of a bloody murder, which took place late Tuesday night. The murderers were Marion Noe, of Bell county, and H. H. Hannon, of Bowlinggreen, Ky., while the victims were M. Ke Dinneen, of Lexington and James Turner, of Clay county, Ky. All were laborers at work at Harrowgate Noe lived in a tent and with him were two lewd women.

While he and Hannon were away, Turner and Dinneen, both drunk, went to the tent. Noe and Hannon returned and found both men asleep. They made the women take away the arms of the sleeping men, and then deliberately shot both through the heads and bodies. Noe then stabbed Dinneen in the right breast with a pair of scissors to see if he was dead.

The murderers then fixed up a plausible story, went before Squire Hamilton and demanded a trial. The women, Belle, Jesse and Carrie Johnson, contradicted the statement made by the murderers, broke down and told the true facts. Noe testified first, left the room and escaped to this city.

He was seen here yesterday evening, Hannon and the women waited further examination and were sent to jail at Tazewell.

The excitement is very high, with the probability of a lynching; armed parties are in hot pursuit of Noe and it caught he and Hannon will be strung up.

HOW TO ADVERTISE.

Miami Valley News.

The timid advertiser generally begins by cutting down his space; he either sacrifices features that would make his announcement attractive, omits most important statements that should appear, or both, in order to save an inch or two of space, as the case may be. Then he debates long concerning the papers to be used, and is more apt to regard the price than the quality of the service offered him. And if, when he reaches this point, he does not finally decide to give it up, he proceeds with much fear and trembling—convinced after one or two insertions that he has made a great mistake, a little later that he is throwing away his money, and ere long probably seeks to cancel his orders to save greater loss.

To begin right is the first and most important step towards success. "Whatever you do, do it all your might." The dog that hangs his tail is always bitten. If you advertise do it just as well as it can be done. Say the right thing in the right way, and in an attractive form; use the best papers to reach a class of readers sought, and then keep right on. The largest and most successful advertiser of the day borrowed from a friend sufficient money to pay for his first advertising in the daily papers of a western city. His first advertisement was good; it attracted attention and it paid. The proceeds were again similarly invested, and similar results followed. Nerve, or as they say in the West sand, coupled with judgment, goes a great way in advertising.

Railroad to Cairo.

Paducah, Ky., May 28.—A charter was obtained from the last Kentucky Legislature to build a railroad from Paducah to Cairo, Ills, but for more than a year the project has been lost sight of. On Monday last, however, ex-Congressman Phil B. Thompson and Warren Green, son of Dr. Norvin Green, arrived here, and after spending a couple of days went down to Ft. Jefferson and looked over that field. Upon their return this evening they made public their business and it is for the purpose of building a railroad from Cairo to Paducah. The distance by land is only thirty miles, though by river, which is at present the shortest route, is seventy nine miles. Messrs Green and Thompson left for Louisville this evening, but will return in a few days with an engineering corps, to ascertain the cost of building the road.

President Harrison has refused to consummate the purchase of the Choctaw lands until July. It is believed to be a scheme to saddle a \$3,000,000 appropriation on the Democratic House.

Judge S. J. Breckinridge, of St. Louis, dropped dead while addressing the Presbyterian General Assembly at Detroit. The assembly, which had been discussing the case of Dr. Briggs, immediately adjourned.

The Webster Citizen comes to us from Providence this week. Messrs. W. S. David and J. B. Richard are its editors and proprietors. It is a nice, clean, spicy sheet, and Webster county will show a spirit of enterprise by supporting it. The initial number is Democratic to the core.

The building committee of the new thirty-five thousand dollar Catholic church edifice at this place have gone to work in earnest. Mr. Sylvester Pike went down the O V road yesterday into Crittenden and counties visiting the stone quarries for material for the foundation. Several leading contractors are figuring upon the brick and wood work.—Union Local.

Uncle Peter, Crittenden's candidate for Senator, has gone visiting this week. He is making social calls upon his Alliance brethren in Caldwell. The latter will hold a meeting in Princeton Monday to talk about the Senatorial race, and as Uncle Peter is a tip-top Alliance man as well as a good Democrat, he feels that he can be vitalized on that occasion to the advantage of all parties concerned.

The two Democratic candidates for the State Senate readily and cheerfully agreed Monday to let the County Committee say which should be entitled to this county in the contest for the nomination. The committee will attend to their case next Monday, and no doubt will do a satisfactory job. Both are fair, tractable gentlemen and the decision of the committee will be agreeable to them no matter which is successful.

The late grand jury was in session ten days and returned forty eight indictments. About half the indictments found were against parties for violating the prohibition law, and with the exception of one murder case, and two or three shooting affairs, the balance were all for petty offenses. This is about the smallest number of indictments ever returned by a Webster county grand jury and ought to show Webster up as a law abiding and peace loving county.—Webster Citizen.

State Commissioner of Agriculture Wilson estimates the present condition of crops in this State as follows:

Wheat, acreage compared with last year's, 106, condition 111; the average setting of tobacco compared with contemplated acreage in eight subdivisions of the State is only about 20 per cent, work having been retarded by an unfavorable season; corn has an acreage of 100 and condition is 96; clover, fully up to an average crop; grasses generally short; fruits cut short by late frost, but an abundance still left; oats may be regarded as a failure on account of late sowing and dry weather.

OUR PIBROACHS.

Eight Speeches Set Afloat at the Court House Monday.

The opening of circuit court always brings a big crowd of people to Marion and Monday was no exception to the rule. They were here from all parts of the county to mingle with each other and discuss the crops, politics, and court affairs.

After the grand jury was charged the court house was turned over to the tender mercies of the speakers of the various parties and causes.

Hon. T. J. Nunn consumed the forenoon in discussing the new constitution. Tom's head and heart are thoroughly enlisted in this work and if a free, frank unvarnished presentation of the document effects the people, they will thoroughly understand the instrument and vote intelligently in August.

In his canvass the Judge labored no harder for his election than he is now working to inform the people of the nature of his wintery exertions. If Crittenden has a conscientious, hard working, painstaking, zealous man, that man is Tom Nunn; whatever duty he has to perform, all of his faculties are called into requisition; he dodges nothing, takes no part, and uses no buncombe. He has all the elements that go to make a successful public servant.

At 1 o'clock Hon. Henry Houston, the Republican candidate for Lieutenant Governor, faced a crowded house. His familiar speaker in Marion, and his reputation as a forensic orator is good. In his address Monday he eschewed national politics altogether, saying that they had no part in State politics. He devoted his time to the new constitution, claiming that it was the question to be discussed in this campaign, and that as the Republican party had endorsed it in convention assembled, the Democrats were against it. From this standpoint he made a pretty fair speech, but the standpoint was far fetched, and if this is to be the basis of the campaign, it will be a huge failure, if the effects of the speech in this county is any criterion, however hard he may labor, no Democrat will ever be convinced that to support the new constitution, the work of a Democratic Convention, he must vote the Republican ticket.

Hon. G. H. Towery, of Dixon, followed Mr. Houston. Since going to Webster county, Mr. Towery has deserted the Democrats and joined the Republicans, and his speech was an extolment of the Reed billion dollar Congress, the high tariff, etc.

Mr. J. W. Orr, another Crittenden county man, who has moved to Webster, addressed the good people, but unlike Mr. Towery, John has not deserted his former inclinations, for he is still a candidate for the State Senate.

Messrs. Rudy and Stephens, candidates for the Democratic nomination for the State Senate, made short speeches, announcing their wants.

Mr. Johnson, the third party candidate for the Legislature, made his debut. He is "a rattler from away back," and the burden of his complaint is that the Democrats have failed to put out a man "smart enough for him to run against." Mr. Johnson is somewhat of a talker, but since the Democrats have nominated Mr. W. J. LaRue, he is evidently "not in it."

Mr. James R. Summers made a short speech. He is no orator, but his talk was plain and modest, totally unlike the boastful, braggadocio, scathing talk of his opponent.

NEIGHBORHOOD NEWS.

THINGS PERSONAL AND IMPERSONAL TOLD BY OUR REPORTERS.

If you want your house made fly proof call on B. E. Parker.

In the last issue of the PRESS we noticed a piece written by the editor showing the many advantages of little towns; however the same was true, yet there is one very great objection to her custom a great part of our citizens have, and that is in digging ponds for stock water, which in time of hot weather become stagnant, and enough mud runs past them to give man, woman and child chills enough to satisfy for the balance of their stay in this world; but I suppose the good people have not thought of this fact, or of its unhealthfulness, or they would in place of digging more ponds, fill up those already dug.

W. A. Hayden, one of our oldest and most highly respected citizens, anticipates moving. He has already purchased his moving wagon and team. We are sorry to lose such citizens, but our loss will be some other towns gain.

Dr. Robert Grassham, of Lola, spent Sunday here with parents and friends.

A four fingered Armstrong reaper for \$140 at S. D. Hodge's.

The road leading from here to Iron Hill has been worked well; it speaks well for the overseers and bands. The trouble with our roads is we have too many potholes and do not work enough. That would be the trouble if we were to vote a tax; it would take about all the tax to pay the horses and the roads would have to dig their own ditches.

We see from the building of Livingston county that "Summers' J. R. is high.

We see Hon. P. C. Stephens' announcement for State Senator and the end is not yet, as there are others yet to follow. Let every man that wants an office speak up; then there will not be enough left for the fliers at the August election.

That Sileam Convention.

ED. PRESS: I see an article in last week's Press that reflects on me in a way that forces me to reply. The writer says I could not tell the difference between the Subtreasury bill and a Land bill. The convention had adopted its platform and it had become public property after that, and I was explaining the first demand of the platform.

I copy from the National Economist, vol. v. April 25th, 1891, first page:

We demand that the Government shall establish Subtreasuries or depositories in the several States, that shall loan money direct to the people at a low rate of interest, not to exceed 2 per cent per annum on non-perishable farm produce; and also upon real estate, with proper limitation upon the quantity of land and amount of money.

If that is not the Subtreasury bill why does it say Subtreasury? What the farmer wants is a place to sell his produce and not a place to store it. What the farmer wants is money of his own and not borrowed money. In the next place the Government has no money to loan. Under the Subtreasury bill the land owners can get money at 2 per cent and loan it to the tenant at 8 per cent.

It is as objectionable as the National Bank Law, and as much in the interest of the land owners, as the National Bank the bondholder.

I had just proven from the statistics of 1890 that ever two thirds of the American families were renters and could not borrow money in the Treasury, and the law was class legislation and contrary to our by-laws. When I was interrupted I soon saw that where ignorance is bliss it is folly to be wise and I refused further remarks.

It was very plain that ignorance was at a premium. I will leave it to any man whether I am right or wrong, who has sense enough to understand an argument. If I am wrong the National Economist is wrong.

It is but just to the Republicans of Sileam Lodge F. M. B. A. to say that they were as much opposed to going into the third or old Greenback party as the Democrats, and stood as firm to our order as we.

REPUBLICAN NOMINEES.

A Candidate for the Legislature and for Jailor Named.

According to arrangement the Republican Committee of Crittenden county convened at Marion Monday to nominate candidates for the Legislature and Jailor.

There was no trouble in making a selection. Mr. J. W. LaRue was chosen to carry the party's banner for the Legislature and Uncle Joe Adams, the present jailor, was nominated without a dissenting voice.
